

TUTORING CENTER: SCIENCE BIO 101 REVIEW SESSIONS

During the semester I will be hosting several group review sessions for our Anatomy & Physiology 1 course examinations through the Tutoring Center: Science. Review sessions are **student driven** which means you must come prepared to each review session. **You need to bring with you a short list of items you would like to have clarified and/or questions you have on the material.** I will not reteach material or answer questions such as “will this be on the exam”. Anything we covered may be on an examination.

If you would like to attend a review session, you will need to register for the Tutoring Center: Science and make an appointment. Directions for registering can be found on the Gserianne.com Web site at the top of the page. Please see directions for making an appointment below. When you sign up for a review session, you are not signing up for the tutor “Dr. Erianne” instead you want to select the tutor name “Dr. Erianne - BIO101 Review”.

Also, although you are registering for a hour time slot, it will appear as if they are just registering for a 25 minute session. This is correct. This means if you signed up for a session at 10:30 you will be signed up for the entire hour from 10:30 – 11:30.

You can begin **registering no sooner than 7 days in advance** for each review session (i.e. if your review session is on a Wednesday they can begin registering the week before on the Thursday).

Please attend if you sign up for a session! If you do not show up, this will be counted towards your “no show” totals in the Tutoring Center. If you decide not to come to a session for which you signed up, please delete your appointment through the Tutoring Center registration software online.

Review sessions spots are on a first come first serve basis, so please sign up sooner than later. See you there!!
